

3 Reasons Why You Should Raise Bilingual Kids with **KT Global School**

The Top CBSE School in Bhubaneswar is redefining the way of education

Imagine two scenarios: one where you first hear your child say their first word in your native language, and another where you hear your grown-up child speak a foreign language like Spanish, French, or German fluently. The latter scenario would be just as overwhelming as the former, wouldn't it? You watch your child develop a vibrant, confident personality, and what could be more fulfilling than this experience?

It's not just about the pride you feel for your child; it's much more than that. According to a Harvard Business Review study, kids raised in bilingual or multilingual environments are more likely to advance into leadership positions due to their improved communication skills and ability to navigate cross-cultural contexts.

At **KT Global School**, one of **the top CBSE schools in Bhubaneswar**, we ensure the holistic growth of our students and creating a bilingual environment is one of our initiatives. We have 3 reasons why your kids must experience the bilingual environment at **KT Global School** and why it is a necessity nowadays.

Enhance your Child's Decision-Making Skills with **KT Global School**

At **KT Global School**, **ranked as the no. 1 CBSE school in Odisha**, our students not only learn English and Hindi along with their mother tongue. We have international faculty members who teach French, providing your child with the cognitive competence required in the 21st century.

Learning a new language is all about knowing new words, constructing and deconstructing them, and playing with grammatical tools, which is altogether a new thing for the brain. When you learn a new thing, your brain literally works out. Bilingualism improves

children's decision-making skills by teaching them how to handle many inputs and swiftly select the best option for them.

According to studies published in the Journal of Experimental Psychology, frequent mental juggling leads to improved skills in analyzing options, managing time, and solving problems—all of which are useful attributes for school, work, and life.

Make Your Child's Mind One of a Kind with Odisha's Best CBSE School

Inculcating foreign languages such as French in the curriculum of **KT Global School** not only enhances the global standards of education, rather it is also a vital part of a child's mental growth. Bilingualism improves a child's cognitive flexibility, memory, and problem-solving skills. Switching between languages improves executive skills such as attention control and multitasking, which promotes mental agility. According to research, bilingual youngsters have a higher working memory, which allows them to do better in school and reason more clearly.

Learning a new language opens the pathway to diverse cultures, hence making your child proficient in cultural knowledge, empathy, and interpersonal and emotional intelligence. Several studies from the National Institute of Health (NIH) and other universities, state that bilingualism enhances brain networks, slowing cognitive decline and giving long-term mental health advantages. These benefits establish bilingualism as a foundation for academic success, adaptability, and lifelong learning, making your child stand out from the crowd.

KT Global School: The Pathway to Your Child's Intercultural Exposure

Learning to speak more than one language helps students develop greater networking abilities by allowing them to connect with people from other backgrounds. Consider a school event in which a student speaks both English and Hindi. They can greet a new classmate in their own mother tongue, which instantly breaks the ice and fosters a cordial relationship.

During a cultural exchange program, a student who speaks more than one language can help others comprehend traditions or practices by acting as a translator across languages, fostering trust and solidarity. According to research published in the International Journal of

Intercultural Relations, bilingual people have higher levels of empathy and social awareness because they understand more different cultural cues than their monolingual peers.

At **KT Global School**, we inculcate in students the ability to speak in multiple languages, which makes them personable and facilitates meaningful connections.

To be able to speak in more than one language is not just a skill to add to your child's career portfolio. It shapes up your child's holistic growth, making them capable of doing the best in whatever they do. Recognized as one of Odisha's best CBSE affiliated schools, KT Global School is the key to building your child 21st century-ready with global competence. Let the boundaries of your child's knowledge expand by giving them the best bilingual environment.
